DISCLAIMER: THIS THEORY HAS BEEN DEBUNKED. READ TO THE BOTTOM FOR MORE INFORMATION!!!!

Going to the Eclipsed Shrine area (AKA my favorite part of TSOS), you can see a small little house to the left, which is MOONEE's room.

At first glance, it's pretty average room. She likes photography, so there's pictures on her wall and table. Some sticky notes, a desk and laptop, fanart on the wall, cakes, and a mirror to the right.

Except that it isn't.

While observing the gauze tape and crutches near the end of her bed, I caught a glimpse of something odd....BONES?

Why could she POSSIBLY have bones under her bed? IT doesn't seem to be an entire skeleton, just a leg bone. And it doesn't help her cause that there's a blood splatter (or, what LOOKS to be blood) right behind her teddy bear.

<https://files.catbox.moe/75k0sa.png>

There is also a mysterious stain on her bed. I don't know if this is blood or not (or if I'm just overanalyzing)

<https://files.catbox.moe/nc5fp5.png>

There's also pill bottles behind a piece of fanart on one of her drawers to the left, and one next to her hat, but we don't know what medication it is, or if she still is taking any (if they're empty or not).

<https://files.catbox.moe/b596gg.png>

When I found all these details, I wondered what it could mean. Is she a spy for the sun? She doesn't exactly state that she's not like C00Z0's "fake friends", only saying that "I hope he doesn't think of me that way."

<https://files.catbox.moe/xqsjwe.png>

No, that wouldn't make sense, she wrote that the doctors in Sunothodis were forcing the religion onto her. But what else?

Until I remembered the bio on her roblox account: "Nothing Holy ever comes clean."

<https://files.catbox.moe/mb97ne.png>

This leads me to conclude that MOONEE has killed someone

UPDATE: The bones under her bed are gone. So she must have disposed of them in the pit or well.

<https://files.catbox.moe/p2xae1.png>

But WHY? The first thing that came to mind was a sacrifice for the sake of Mother Moon/Mirrava, but I don't think she accepts/condones human sacrifices. Someone DID mention the possibility of MOONEE eating the person, but I'm not sure what to think of it. It could be possible...

Regarding the medication, maybe it could've also played a part in this? MOONEE is the only person in Dusthaven that is known to take meds, since noone else has pill bottles in their rooms. It could be something serious, like a chronic disease/illness.

Maybe it has to do with her broken leg, like painkillers (which is most likely), but why would they be so far from her desk?? If they were painkillers, they should be near her desk for easy access.

I hope future updates will give us more context on what this could mean.

ALRIGHT UPDATE (11:27 PM, 3/28/2026)

The evidence has been completely wiped out. There are no more blood stains, the bones are gone, and now it just looks like an average room.

ALSO. IDK WHAT THESE TWO ARE UP TO. BUT I FOUND THIS IN THE ECLIPSED CHURCH.

So turns out MOONEE was intended to be a cannibal, making me partially correct on my theory. BUT SPITSO came out and said that this is no longer canon, since it's pretty disgusting, and that MOONEE is a teenager.

<https://files.catbox.moe/xoi9fn.png>

The bones under her bed were actually added by someone else, who I'm presuming is the person behind MOONEE. But they had a talk and removed the concept as a whole out of the game.

<https://files.catbox.moe/rap7le.png>

Call me crazy, but I'm a bit disappointed. I think that MOONEE being a cannibal would've went so hard, and I just like making my favs fucked up. But I respect the TSOS team's decision.

So now what? What about all the other evidence? Well, I was able to ask a myth hunter in the EOTW dc server what they knew about MOONEE, since I saw them talking to her. They responded with this:

<https://files.catbox.moe/x2pavf.png>

So we already know that MOONEE has a big appetite. But from what they said, it's VERY VERY emphasized. And knowing that she can eat through entire cakes and still want more, its safe to conclude that she has an eating disorder, with her appetite being her "mark".

This can also explain the pill bottles, since people with EDs can take medication. Perhaps the meds help with it, or maybe it doesn't.

I'll stop updating this doc since my theory was disconfirmed, but I will write more theories when I can :::::))))))
